TO ADVERTISERS. The circulation of the Paily and Tri-Weekly editions of the Patriot, combined, exceeds largely that of any other newspaper printed in Nashville. It is these editions that are generally used for advertising The Patriot therefore, is the best advertising medium in the city.

Nashville subscribers to the Tennessee Farmer and Mechanic who do not have boxes in the Post Office, will find their papers in the count ing room of the Patriot.

DEATH FROM FIRE .- The negro child, which was so badly burned at the fire on Friday morning last, has since died from the effects of its injuries.

PERSONAL .- Our friend, T. B. Laird, of the Shelbyville Expositor, paid us a call on Saturday last. He gives a good account of matters and things in general in the flurishing city of Shelbyville, and says that it is not received opinion up there that Shell yville's proximity to Nushville injures the trade of the latter to any considerable extent. We trust this explanation will allay any fears which an article in the Constitutionalist of a late date may have occasioned our business men.

LITERARY CELEBRATION-CHANGE .- The Agatheridan and the Erosophian Literary Societies of the Univ raity, will celebrate the birthday of the "Pather of his country," on Monday th . 23d inst., at the One Fellows Hall, and not at the Nash ville Theatre, as heretofore published. We under stand that there will be a number of speeches, good music, and other exercises usual at literary feres. The exercises begin at 74 o'clock P. M., and we trust that the invited public will manifest, by a crowded Hall, their cordial appreciation,

THE HUNTSVILLE INDEPENDENT .- We know of no better paper in North Alabams than the Huptsville Independent. It is conducted with energy, spirit and ability; and we are pleased to learn, is meeting with flattering success.

The region of country in which Huntsville is sit... nated is exceedingly fine and densely peopled, and consequently the trade of Huntsville is of no mean importance. Mr. Wiggs, the sprightly editor of the | J. C. Hadard, Independent, is now in this city, and should any of our mercantile or other houses desire to make their business known in North Alabama, they cannot do better than to confer their advertising upon him.

ACENOWLEDGEMENT - Byn. F. Egan, the popular clerk of the good steamer Alconia, has our thanks for late St. Louis and Memphis papers. The officers of the steamer Sallie West have

our thanks for St. Louis papers of a late date. Cold -The wind moved round to the North on Friday night, and the weather became quite cold Saturday was cool enough to render fires neces-

sary for comfort.

ON a STRIKE. - Some of the laborers on the wharf on Saturday morning, struck for higher wages, demanding 35 cents per hour. One or two degraded white persons distributed whisky among negroes and white laborers who were congregated upon the wharf, for the purpose of keeping them from working for less than the price demanded; but their efforts did not prevent others from unloading the steamboats at the wharf at former p ri-

ANNIVERSARY BALL - Let it be remembered tha the Grand Ball to commemorate Washington's Birthday will take place to-night at the rooms of Prof. Goodwin over Beech's Store, on College street, The arrangements are complete and a very pleasant affair it doubtless will be. One ticket admits one gentleman and two ladies.

John York has received Frank Leslie's Il lustrated Newspaper of Feb. 21st. It contains illustrations relating to the Bond street tragedy, including portraits of Dr. Burkell and the suspected parties, with a description of the affair, together with the usual variety.

School Examination. An examination of the little boys in one of the rooms of the Hines' school building, took place on Friday afternoon last. The attendance of vists tors was small, but those who were present were evidently highly pleased with the exercises. The promptness with which the little fellows responded to the questions put to them, the correctness in spelling and reading which they exhibited, and the readiness and proficiency they manifested in all the branches of study they are pursuing were no less gratifying to parents, visitors and teachers, than creditable to the boys. These examinations are to be held every Friday afternoon, hereafter, taking the different department and rooms in rotation in the different schools. They cannot fail of being entertaining to those who take any interest in the echonis, and they are calculated to awaken emulation on the part of the scholars. It is desired by the Board of Education as well as the teachers, that those examinations should be attended by our citizens, and we can assure them that an hour can hardly be spent more agreeably than by so doing It will have a tendency to stimulate both scholars and teachers to increased efforts for the advancement of the latter, besides affording an opportu nity to see whether the former are doing their duty.

SPECIAL NOTICES.

Great Curs of Rheumatism in Cincinnati, Chio -Convincing Evidence -For more than three years I have been suffering with rheumatism, and enlargement and pain of the bones and joints. I have stric ly followed the advice of physicians, and at other times used such family medicines as had been recommended for the cure of rheumatism; still I did not improve in the least, and was frequently compelled to keep my bed, and thereby was prevented from attending to my business. - Some weeks ago I was induced by a friend to try Carter's Spanish Mixture. The effect was miraculous. I felt considerably improved after I had taken the fourth dose; I have only used one single bottle, and am entirely free from all pain. I feel better than I have folt for years, and I a tribute my com pletely restored health solely, to the use of Carter's Spanish Mixture. I consider it a most excellent medicine for rheumatism and all diseases of the blood, and cheerfully nd it to the afflicted. D. BUREITF,

Inflammation of the Lungs, until the discovery of Carter's Spanish Mixture, was regarded by physicians as most hazardous to health; but since then, those who have tried it as a remedy, speak o' it as a never-failing panacca. Its healing and soothing effects upon the affected parts, as well as its powerful agency in purifying the blood, make it an invaluable agent in the cure of such diseases.

Art winds the railway through the mountains and the mud; makes her machines of wood and iron, to act as if with knowledge and annihilates space with lightning tamed down to the tuteledge of a boy. Nothing is too lofty for her touch and nothing too humble. A new proof of this old conviction has just fallen under our notice, in the shape of a CATHAR-

Chemist, Dr. C. J. AYER. If we understand the subject, he has carried that article to the farthest perfection of which it is capable. Instead of employing Drugs in its composition, as we have always thought the necessary and only way, he has with consummate skill extracted the virtues of the medicine to be employed and combined them alone in their purity together. The composition is then mixed and rolled by machinery and steam power into a sperold poll which is wrapped in an envelope of gelatine, for protection from the effects of weather or time, and then thickly coated with sugar, to serve as its 10 50, 11 95, 9 00. 20 hbds admitted, \$14 85, 16 25, 14 35, 14 05, 15 30, 15 00, 13 5, 15 00, 15 8), 14 00, 15 00, 15 50, 15 55, 15 2, 16 00, 13 15, 14 95, 15 9, 16 05, 15 6).
